

bp's contribution to Scotland in 2025

Analysis and modelling by Oxford Economics

Economic contribution

bp supported a total contribution of around £1.5 billion gross value added (GVA) to the economy of Scotland. This was approximately £1 in every £120.

Overall spend with suppliers

bp spent £660 million with Scottish suppliers in 2025, £410 million of which was operational spending and £260 million was capital expenditure.*

2025 saw spending across a variety of sectors, with the largest recipients being £260 million with professional services and £150 million with mining upstream services, which include exploration, drilling and production.

To see how this spend translates into real impact on the ground, read our supplier case study on work delivered in Scotland.

Supporting jobs

bp supported an estimated 10,000 jobs across Scotland, comprising its direct workforce and jobs indirectly supported through supply chain expenditure.

Delivering quality services

There were 131 bp-operated and dealer-operated retail sites in Scotland offering quality fuels and convenience. 39 sites offered bp pulse ultra-fast and rapid EV charging.

Spotlight on social investment

bp's Student Tutoring Scheme is its longest-running education partnership. Now in its fourth decade, the programme supports pupils by placing university students in local classrooms as tutors and role models. In 2025, 76 student tutors completed eight-week placements across 36 primary and secondary schools across Aberdeen City and Aberdeenshire.

“
bp was the first big company that worked with us and that gave us our foothold in the industry and shaped who we are today.”
