

Na Kika

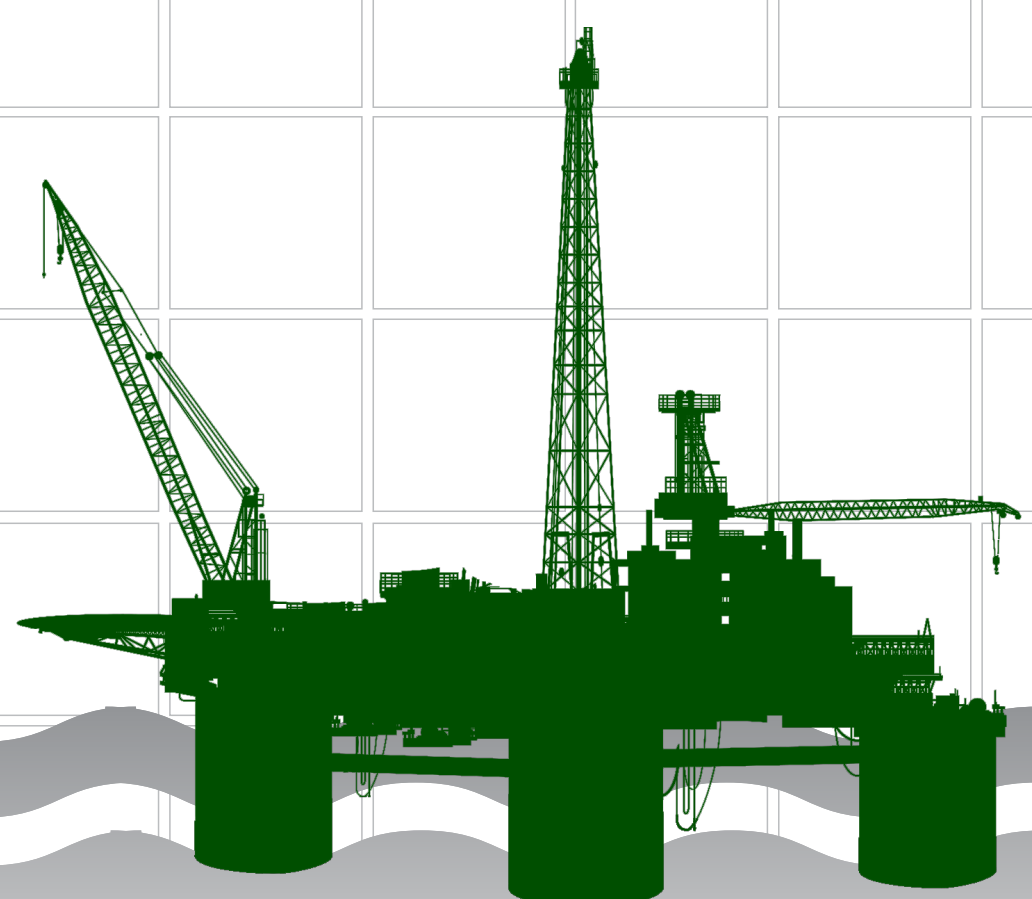

Delivered 15.5M Argos work hours with world class safety performance

Location
140 miles southeast of New Orleans

Operator
bp (50%)

Partners
Shell (50%)

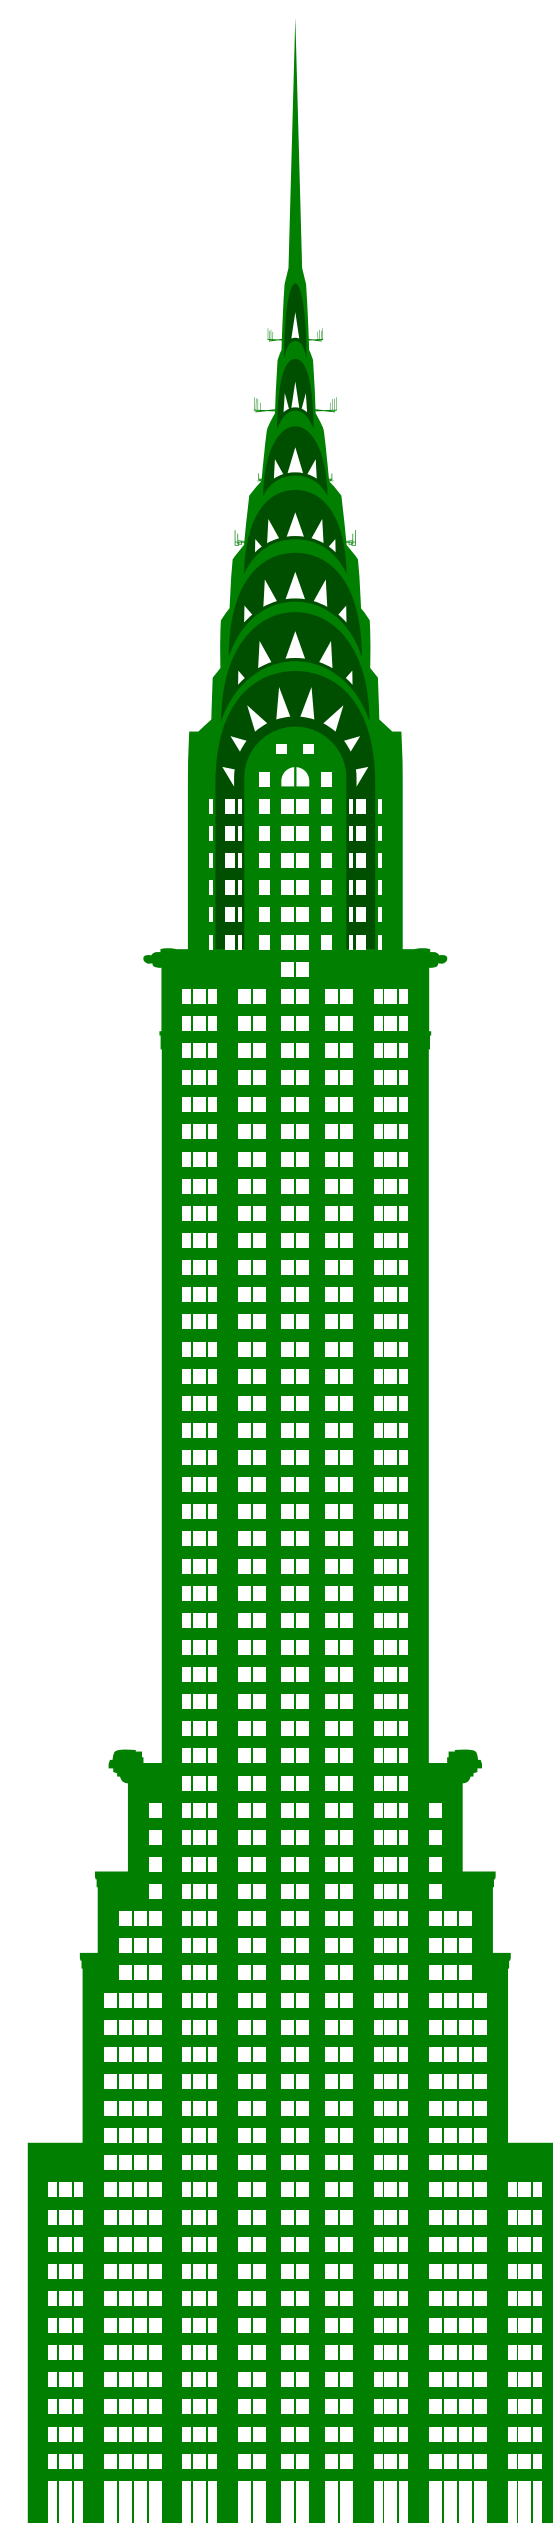

One of bp's **most prolific producers** in the Gulf, the Na Kika platform is a hub for 8 subsea fields, with more than 100 miles of infield flowlines which make up the gathering system.

Operates at a water depth of

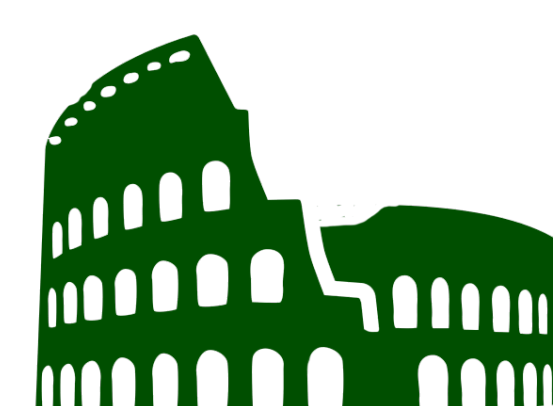

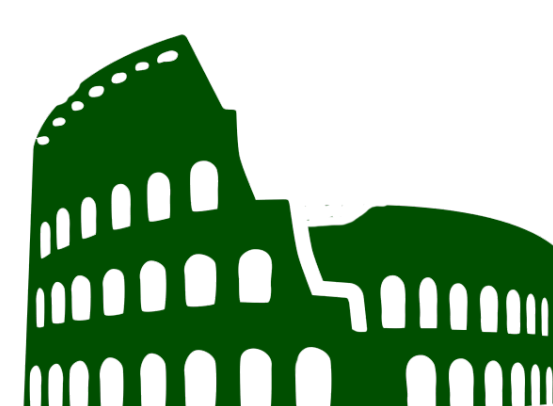

6,340 ft

That's 6x the height of the Chrysler Building.

Energy demand continues to grow, and **we are increasing our investments** in oil and gas.

As an integrated energy company, we are focused on growing production – always maintaining strong and safe operations. Na Kika allows bp to access and deliver barrels that **provide the energy the world needs.**

70,225 sqft

Has main deck area 2x the size of the Roman Colosseum.

Can produce up to

130K barrels

barrels of oil per day

That's enough fuel to power a

747 jet 4x
around the earth.

It can also produce up to **550 million** cubic feet of natural gas per day.
