

Thunder Horse

Location
150 miles southeast of New Orleans

Operator
bp (75%)

Partners
ExxonMobil (25%)

The Thunder Horse is bp's **largest production and drilling platform** in the Gulf; it can house more than 300 workers in its living quarters.

Operates at a water depth of

6,050 ft

That's 10x the height of the Washington Monument.

Energy demand continues to grow, and **we are increasing our investments** in oil and gas.

As an integrated energy company, we are focused on growing production – always maintaining strong and safe operations. Thunder Horse allows bp to access and deliver barrels that **provide the energy the world needs**.

Can produce up to

250K barrels

barrels of oil per day

163,000 sqft

Has main deck area big enough to fit nearly 3 regulation football fields.

That's enough energy to power

every home

in Miami for a month

It can also produce up to 200 million cubic feet of natural gas per day.
